#### 207.105 Contents of written acquisition plans.

For acquisitions covered by 207.103(d)(i) (A) and (B), correlate the plan to the DoD Future Years Defense Program, applicable budget submissions, and the decision coordinating paper/program memorandum, as appropriate. It is incumbent upon the planner to coordinate the plan with all those who have a responsibility for the development, management, or administration of the acquisition. The acquisition plan should be provided to the contract administration organization to facilitate resource allocation and

planning for the evaluation, identification, and management of contractor performance risk.

(a) *Acquisition background and objectives*—(1) *Statement of need*. Include—

(A) Applicability of a decision coordinating paper (DCP), acquisition decision memorandum, Defense Acquisition Board (DAB), and/or internal service reviews. Describe the options in the DCP/acquisition decision memorandum and delineate which option the acquisition plan supports.

(B) The date approval for operational use has been or will be obtained. If waivers are requested, describe the need for the waivers.

(C) A milestone chart depicting the acquisition objectives.

(D) Milestones for updating the acquisition plan. Indicate when the plan will be updated. Program managers should schedule updates to coincide with DAB reviews and the transition from one phase to another (e.g., engineering and manufacturing development to production and deployment).

(8) *Acquisition streamlining*. DoDD 5000.1, Defense Acquisition, and DoD 5000.2-R, Mandatory Procedures for Major Defense Acquisition Programs (MDAPs) and Major Automated Information System (MAIS) Acquisition Programs, contain policy direction on acquisition streamlining. See MIL-HDBK 248, Acquisition Streamlining, for guidance on streamlining performance requirements, the technical package, and the contract strategy.

(b) *Plan of action*—(4) *Acquisition considerations*. When supplies or services will be acquired by placing an order under a non-DoD contract (e.g., a Federal Supply Schedule contract), regardless of whether the order is placed by DoD or by another agency on behalf of DoD, address the method of ensuring that the order will be consistent with DoD statutory and regulatory requirements applicable to the acquisition and the requirements for use of DoD appropriated funds.

(5) *Budgeting and funding*. Include specific references to budget line items and program elements, where applicable, estimated production unit cost, and the total cost for remaining production.
